International Current Affairs:

1. World's first floating city in Busan, South Korea-

- Rising water levels all over the world have been a cause of worry for humans. Coastal cities, due to frequent flooding, cause huge losses to property and the environment which cannot be ignored.

- As a pilot project of the United Nations, Busan plans to be the first city to adopt a “floating city” wherein some parts would be ready by 2025.
- The plans are afoot to make it a self-sustained city with its water recycling plant and solar panels for its power generation.
- The city would adopt a method to recycle, treat and produce its clean water for use.
- Around 12,000 people could be accommodated in this floating city once complete, which has to be served by a zero-waste economy.
- Right from the beginning, the city will be accessible by non-fuel vehicles like electric cars or bicycles.

2. UK hosts 'world's first' hub for drones, future flying taxis-

- A pop-up urban port for delivery drones -- and one day, potentially flying taxis -- launched in Britain, lifting a box of prosecco for a brief celebratory test flight hailed as groundbreaking.
- Air-One, a so-called "vertiport" for drones and future electric vehicles taking off and landing vertically, was proclaimed as the first of its kind by proponents and heralding a new era of low-emission futuristic air transport.
- Based in Coventry, a former car manufacturing powerhouse in central England, the site will be used for a month-long showcase of the burgeoning industry.

Business & Economy Current Affairs:

1. Reliance Industries becomes 1st Indian company to hit Rs 19-trillion m-cap-

- Mukesh Ambani-led Reliance Industries Ltd's (RIL) became the first Indian listed company to touch the Rs 19-trillion market capitalization mark after its shares scaled a record high.
- RIL is one of India's biggest conglomerates with a presence in refining or marketing petrochemicals (O2C), oil and gas exploration, retail, digital services, and media, making it a well-diversified business entity.

2. Bitbns is the first Indian exchange to list metaverse token 'TRACE' on its platform-

- Crypto exchange Bitbns has become the first bourse in the country to list metaverse token 'TRACE' on its platform.
- Belonging to the Trace Network Labs, the TRACE is a popular metaverse token used for accessorizing digital avatars.
- While it empowers network users with governance control over the protocol, TRACE also provides better exposure to the world of non-fungible tokens expanding metaverse in the country.

3. World's richest man Elon Musk acquires Twitter in 44 billion dollar deal-

- Twitter has announced to sell its social media company to the world's richest man Elon Musk, in a 44 billion dollar deal.
- Under the terms of the deal, shareholders will receive 54.20 dollars in cash for each share of Twitter stock they own, matching Mr. Musk's original offer and marking a 38% premium over the stock price the day before he revealed his stake in the company.

- The deal, which was unanimously approved by Twitter's board, is expected to close this year.
- Under the deal, Twitter's shares will be delisted and it will be taken private.

Science & Technology Current Affairs:

1. UP first state to adopt airshed mgmt for clean air-

- UP will be the first state in the country to adopt 'airshed management' for clean air with the help of the World Bank and other national and international institutes.
- The state has set a target of reducing PM2.5 levels in the air to 45 micrograms per cubic meter in five years.

2. Celestial spectacle as four planets line up in the sky-

- A celestial spectacle awaits the early riser who wishes to gaze out at the pre-dawn skies.
- It is the apparent alignment of four of the brightest planets — Venus, Mars, Saturn, and Jupiter — in a line.
- This year, the planets will appear close in April and May.
- As they move along in their orbits, Saturn will get further away from the others, while Jupiter and Venus will appear close on May 1, and Jupiter and Mars will look closer on May 29.
- The four planets appear in a line at this moment in the morning, and as they move in their orbits, some of them can get quite close to one another in the sky.
- However, this is just an apparent alignment as seen from our perspective on Earth.
- The actual distances between them are still vast.
- "This is an excellent occasion for all of us to visually track the positions of these fast-moving planets every day, and appreciate the motivation of all ancient cultures to understand and predict their paths in the sky,".

Miscellaneous Current Affairs:

1. World Day for Safety and Health at Work 28 April-

- In 2003, the International Labour Organization (ILO), began to observe World Day stress the prevention of accidents and diseases at work, capitalizing on the ILO's traditional strengths of tripartism and social dialogue.
